

COLORS IN MOTION®

In these times, each day seems to bring new challenges. It's often difficult to remember that there is another way to respond, and so important to find that place of centered calm.

This is exactly the mission of Colors In Motion...
to bring beauty and centered calm into awareness.

Introducing you to our new streaming channel,
offered free through June 30th, 2020.

Colors In Motion provides hours of calming, meditative, original cinematic works of art, right to your television, mobile device, or computer—whichever is most convenient for you, wherever respite and healing is most beneficial. These beautiful, subtly-shifting images are sourced from original works of fine art, gracefully synchronized with evocative soundscapes.

We invite you to explore the broad variety of experiences,
all designed to open beauty and centered calm in your life.

Please share this invitation with family and friends and colleagues.

Visit ColorsInMotion.com and start streaming today.
