

COLORS
IN MOTION®

Bringing beauty and centered calm
into people's lives

CREATING ART WITH A PURPOSE

Imagine finding comfort where healing is most needed. *COLORS IN MOTION* calms people's nervous systems from overwhelm and trauma with rhythmically moving colors synchronized with healing soundscapes, offering viewers an opportunity for contemplative presencing.

Recognizing beauty transforms our experience of life. *COLORS IN MOTION* specializes in designing atmospheric digital ambiance in architectural spaces, creating welcoming and healing atmospheres.

Using subtle digital effects, we blend unique, original water color paintings with abstract photographic imagery, to create an aesthetic backdrop that is gradually yet constantly changing – *breathing, evolving, much as the natural world seems to flow around us, always in motion* – creating a unique sense of place that is new, enticing, yet strangely familiar. The slowly shifting abstract imagery invites you to move with it, gracefully into the presence.

Allow yourself to be transformed.

Colors In Motion creates an ambiance that invites your participation, beckoning you to realign with your deeper nature.

COMMERCIAL AND RETAIL INTERIORS

Colors In Motion can be a signature feature of a digital content campaign that plays on video walls in office lobbies and retail establishments, creating an upscale ambiance and welcoming guests, clients, and employees as they sit, wait or walk through the space.

HEALTHCARE ENVIRONMENTS

Colors In Motion is providing relaxing and calming video content in facilities through an exclusive collaboration with Medcalm, a provider to hospitals throughout the United States. Patients can view 11 programs of audio-visual meditations through closed-circuit TV in their rooms.

RESIDENTIAL LIVING

Colors In Motion can be a centerpiece for digital content campaigns for video walls in residential spaces. The content provides a welcoming and upscale ambiance that enhances the lives of residents as they enter, exit, and move through the space.

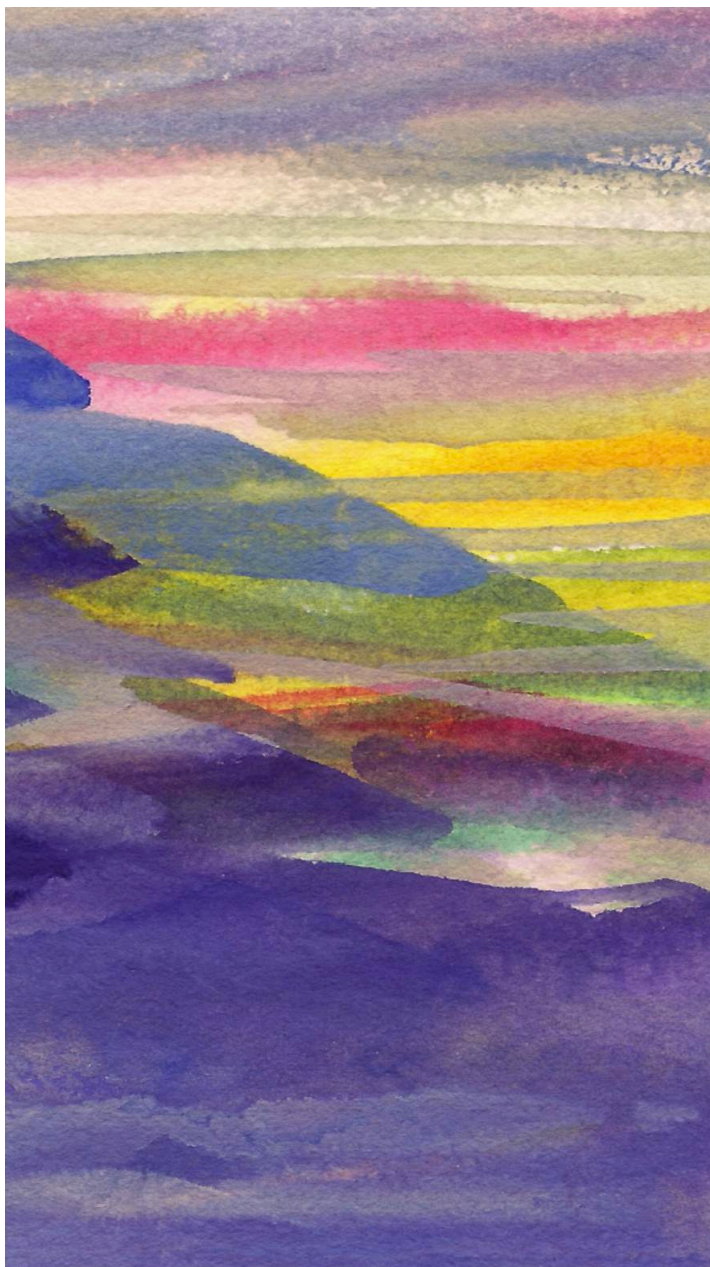

OUTDOOR MEDIA, CIVIC AND PUBLIC SPACES

Ideal for well-travelled outdoor venues, Colors In Motion brings ever-changing works of art into a large scale, creating breathtaking experiences for the public in atrium spaces and open space parks.

CONFERENCES AND GATHERINGS

Refreshing to attendees, Colors In Motion has been an integral part of conferences and gatherings, a centerpiece of multimedia artistic programs and a remarkable resource for meditation, healing, and connection at spiritual gatherings.

Endorsements

The imagery has had a calming effect on everyone who enters the room and I've used it to shift her focus from pain and discomfort to images and pleasant thoughts. The impact on me has been positive as well – which surprised me. I know about the power of shifting awareness but this has helped me experience it firsthand.

Fred T., husband of hospice patient

What people say...

HEALTHCARE ENVIRONMENTS

What anxious patient or family could not find comfort in Colors In Motion's remarkable audio / visuals. In the privacy of their room or home, in waiting rooms and treatment centers, and in staff lounges for dedicated clinicians, [these] compositions of stunning artwork and matched musical scores provide balm for the soul and respite from the struggles of healing.

J. Christopher Cutler, Hospital Consultant

Watching Colors In Motion is like having a reset button for the day. During the recent implementation of a new electronic medical record system at our hospital, tension and stress was high. Taking just 5 minutes to watch Colors In Motion, I left feeling calm and relaxed. It was definitely the best part of my whole day.

Sarah Collins, Wellness Coordinator

BUSINESS ENVIRONMENTS

Colors In Motion is a beautiful and inspiring haven in the storm of life. In a demanding corporate environment, it can be challenging to stay centered and attuned. Yet whenever the Touchstone drops into my inbox, it is a wonderful excuse to take a moment out of my busy day and go inward. This tool helps me to shut out the noise and focus in the moment. When I do this, I find that the quality of my work improves – since I act from a new place of clarity rather than distraction and reaction.

Anne Avidon, Healthcare Business Executive

EVENTS AND GATHERINGS

Experiencing Colors In Motion was both calming and healing. It helped me to tap into my spiritual center.

Doris D., Social Worker

This is gorgeous work, a great cross-section of healing arts and Wellbeing. I love the idea of a Touchstone that brings us back to ourselves and a space of meditation.

Shakti Rowan, Wellness Coordinator, CIC

2019 marked several milestones for COLORS IN MOTION. Over the course of 10 years, we have produced 50 Touchstones (short audio-visual experiences), inspiring a sense of centered awareness in viewers to a diverse audience in 143 countries

OUR SHOWCASES

MEDITATION ROOM

<https://vimeo.com/269533318>

Colors In Motion was a centerpiece of the Meditation Room at the co-working office space Cambridge Innovation Center; a peaceful refuge from the busy workplace where any worker could go and refresh during their full day.

CONVENTION CENTER

<https://vimeo.com/203396366/748539c365>

The Boston Convention and Exhibition Center selected Colors In Motion to be part of its ongoing juried collection of digital artworks that play during their regularly scheduled programming on their 80' tall digital LED marquee.

EXECUTIVE BRIEFING CENTER

<https://vimeo.com/203323781/2ae57233a2>

SL Green Realty Corp real estate investment trust in New York City selected Colors In Motion to play on its 22' long digital LCD video wall, the centerpiece of a world-class corporate briefing center.

RESIDENTIAL LOBBY

<https://vimeo.com/203203946/2d050f676e>

The Sterling Apartments in Philadelphia selected Colors In Motion to create a sophisticated, upscale ambiance on two large-scale LCD video walls in their newly renovated lobby and elevator vestibule spaces.

COLORS IN MOTION dedicated founders and advisory board are innovating ways to connect with our growing global audience.

ABOUT THE FOUNDER & DIGITAL MEDIA DIRECTOR

Christopher Graefe, Digital Composer, has 25 years of design experience in a variety of media. His work in product design and research has been recognized for excellence and/or published by organizations that include Apple Computer, the Industrial Designers Society of America, the Association for Computing Machinery, and International Design and Business Week magazines. Christopher is a graduate of Carnegie Mellon University's School of Design and has served as a guest lecturer and adjunct faculty member at Carnegie Mellon University and the Dynamic Media Institute at the Massachusetts College of Art. His expertise is focused on developing large-format digital installation platforms for organizations ranging from internationally renowned museums to Fortune 50 corporations. Christopher's partnership in Colors In Motion offers him the opportunity to bring a caring, art-based approach to digital content that creates calming, reflective experiences for people in public spaces.

Linda DeHart, Founder, has been creating large-scale original works of art for custom commissions in a variety of forms for over 50 years. The blessings of a long life have enabled the steady unfolding of a truly creative spirit, evidenced by numerous custom corporate installations, exhibitions, and worldwide commissions. A graduate of the Rhode Island School of Design, Linda has created innovations in a variety of art forms, from appliquéd tapestries, hand made paper sculptures, aerial sculptures, graphic wall and silk paintings, and water-based media paintings and collages. The current innovation, Colors In Motion, arises out of this ongoing contemplation and receptivity as to just what can take a person inward, through our visual and audio senses, into an emotionally spacious and peaceful experience. Always, in each venue, Linda's work invites the viewer-participant to go beyond the focus of the object and into the experience of the whole space — to be conscious of the art in relation to the space it is in — how we experience ourselves in that environment because of the art.

Linda and Christopher's Colors In Motion partnership is informed by each of their unique multi-disciplinary, collective expertise spanning decades of developing artistic work for public installations and spaces. The span of decades of Linda's artistic vision and Christopher's digital aesthetic and technological fluency bring a fuller sourcing of experiences that are applied to Colors In Motion's extensive catalog of audiovisual meditations.

COLLABORATING

Colors In Motion develops audiovisual meditations through collaborations with global artists who infuse their diverse cultures, voices, perspectives and art forms into each digital work of art in motion, a "Touchstone." This richness of perspectives instills a universal application of the healing power of beauty: color, motion and sound.

CREATING ART WITH A PURPOSE

Imagine finding comfort where healing is most needed. Colors In Motion calms people's nervous systems from overwhelm and trauma with rhythmically moving colors synchronized with healing soundscapes, offering viewers an opportunity for contemplative presencing.

TRANSFORMING PHYSIOLOGY

Through ever-changing, open-eyed meditations, we train the mind and body to stay in the present moment, experiencing the beauty that's always around us. The slow rhythms, sounds, and abstract forms of the art expand our perception, sustaining in us a sense of balance.

ABOUT THE ADVISORY BOARD

A collection of exceptionally talented creative professionals bring their unique insights from in-depth trainings and varied backgrounds, helping to focus on ground-breaking initiatives, seek new collaborators, and reach new audiences.

CONTACT the Colors In Motion team and explore how you can set up an atmosphere in which you, your loved ones, your clients, or the public can live a more centered life and truly thrive.
